My brain is an organ inside of my skull. It controls everything my body does. My brain has 3 main parts. The brain stem helps me to breathe. My cerebellum controls how I move. And my cerebrum helps me think and my brain is amazing!

My students and I loved making these human body diagrams! We will continue to make them every year!

Thank you!

This has been one of my favorite resources to use! This is a great visual that allows students to have a hands on activity that goes along with what we have been learning. I have the finished product on display and students are able to use it as a resource.
