WHAT OTHER TEACHERS ARE SAYING

thefirstgraderoundup.com

I am so glad I found these! It makes reading decodables an easy addition to my small groups. I really love the assessment that comes with each concept. I will be using this on a weekly basis to help me gather data to report specifically to parents on how their child is doing with each concept.

~Marie

I love these! My students were so far behind because our school is stuck using f&p. I snuck these into my guided reading and saw soooooo much growth. My students loved the success they saw too.

~Kelda

This is a great resource when trying to align instruction with SOR and phonics-based curriculum. We shifted to SOR, Wilson, and Heggerty, but didn't have the books/resources to support learning, so we used this resource and it is fantastic!

How To Use Decodables

Research in the science of reading is overwhelmingly supportive of the positive effects of teaching kids to decode. This packet gives you resources to help kids practice decoding in a variety of settings with a specific phonics skill. The skills covered in each decodable resource correlate with my Super Phonics Curriculum: bit.ly/2ndsuperphonics

WHAT'S INCLUDED? One **decodable word list** is included. One **decodable booklet** is included in color, black and white and digital form. Use these to extend your phonics lessons into independent practice. **3 decodable passages** are included to use in small group instruction or intervention. One **assessment** is included for data collection, RTI data, or just weekly check-ups.

Each decodable text includes a few high frequency words. Here's a look at the titles of the texts and their high frequency words.
