WHAT OTHER TEACHERS ARE SAYING

thefirstgraderoundup.com

One of the best resources I have ever purchased! I use this almost every day in my first grade classroom. My school implemented the CGI method and it has been challenging to come up with word problems every day. Now, I don't have to! Also, the layout of the sheets is great for students.

~The Maker Classroom

I am so excited to use this! I used the free one first just to see how my kids would do. It went so well I had to buy the whole bundle!

~Katelyn

Love the simplicity and ease of use of this product! I have every month already printed and ready to use in a binder.

FREQUENTLY ASKED QUESTIONS

thefirstgraderoundup.com

Can I use these on my smartboard?

Yes! Open the file on your interactive board and write the names and numbers in. Then, students can record their work in math journals to save paper. While this is great for older kids, my K-1 kids benefit from working on the printouts and having boxes to divide their space.
